#### The Problem with Comparing University Entering Grade Averages Across Canada

The figures set out above make sense in the Alberta context if restricted to comparisons for very similar academic programs. But they don't make sense across different programs, and they are not usefully comparable with entering grade averages for universities outside the province. Valid comparisons to the decimal point across Canada are impossible given the lack of detailed data for every province that would allow adjustments for the many inter-provincial variables. Major variations in high school education practices (eg, different course packages) and in grading systems, practices and standards lead to notable differences in university specifications of what should count for university entrance and how.

By way of illustration, consider the impact of two significant inter-provincial differences: age group university participation rates, and student preparedness as measured in the international PISA survey by the Organization for Economic Cooperation and Development. Adjustments to university entering grade averages for these factors would add 1.4% to the Alberta entering grade averages and elevate Alberta proportions in the higher grade ranges accordingly. The equivalent provincial adjustments for universities in the rest of Canada would produce a variety of changes, some up and some down, greatly changing their relative levels, and these two adjustments alone admittedly do not cover many more anomalies.

Furthermore, entering grade components and standards are applied differently across different programs, and the mix of programs is different for every university, even within the same province. The logical conclusion is that ranking precise entering grade averages at universities across Canada at face value is overly simplistic and distorts reality. It should not be done.

## **B4. Application Fees**

### **University of Calgary, 2006-2007 application fees**

Application	\$100

**B5. Admission in Winter, Spring, Summer terms**

Are first-time, first-year students accepted for terms other than the fall?

Yes  Nursing (40 students each January); Social Work for specific off-site programs (e.g. partnerships with communities)

No

Admission requirements for January are the same as for Fall.

**B6. Deferred Admission**

Does your institution allow students to postpone enrolment after admission?  
[Please note that our policy on deferred admission may vary by program.]

Yes  In very limited circumstances

No

If yes, maximum period of postponement: one year

**C1. Enrolment of Transfer Students**

Do you enrol transfer students in first entry undergraduate programs?

Yes

No

If yes, may transfer students earn advanced standing credit by transferring credits earned from course work completed at other colleges/universities?

Yes

No
